

UDSv4 Updates

August 2024

naccddata.org

Dear ADRC Program Colleagues,

We are writing to update you on the timeline for launching UDSv4. **The UDSv4 start date has been extended beyond the end of September 2024.**

What happens on the UDSv4 Start Date?

Starting on the UDSv4 Start Date, all prospective UDS data collection at each ADRC will be done using UDSv4. ADRCs will have an additional year to submit their backlog UDSv3 data to NACC but no new UDSv3 data collection should happen past the UDSv4 Start Date.

Exception: For sites that are currently administering UDSv3 forms in Spanish or Chinese, you may continue to administer UDSv3 visits for these participants until the translated UDSv4 forms are available.

A new target UDSv4 Start Date will be shared in early September 2024

We are gathering feedback from the 29 ADRCs that are currently participating in the [UDSv4 Pilot](#) to help determine a new target UDSv4 start date.

The site participating in the pilot now have direct experience administering UDSv4 visits with the PDF and/or REDCap versions of the forms and with the new data submission options available via the ADRC Portals found within the NACC Data Platform. They will be in a good position to provide input on how much time sites will need to transition from UDSv3 to UDSv4. We will provide an updated timeline in early September after reviewing this feedback.

What can you do at your site now to start preparing for the transition to UDSv4?

As you await the official UDSv4 Start Date, here are some things you can do at your ADRC now to start preparing for transitioning your site to UDSv4:

Create/update users in the NACC Directory

- Ensure that staff have the correct permissions to the NACC Data Platform
- Instructions on how to grant permissions can be found [here](#)
- Make sure to mark "Yes" so that staff can access the NACC Community Forum on Discourse once that is launched for the full ADRC Program - stay tuned for an invite in early September

Prepare staff for their roles

Clinical staff onboarding

1. Clinical webinars

- NPS, MBI and more - View recording [here](#)
- Operationalizing "Impaired, not MCI" in UDSv4 - View recording [here](#)
- UDSv4 Clinical Form training videos [here](#)

2. Preview UDSv4 Forms [here](#)

3. Gain familiarity with the new UDSv4 data submission site

- Data Submission Training - View recording [here](#)
- Login to the NACC Data Platform - See your UDSv4 Pilot lead for your ADRC's personalized Portal link or email nacchelp@uw.edu

Data staff onboarding

1. Gain familiarity with the new UDSv4 data submission site

- Data Submission Training - View recording [here](#)
- Login to the NACC Data Platform - See your UDSv4 Pilot lead for your ADRC's personalized Portal link or email nacchelp@uw.edu

OPTIONAL: Begin configuring an API for data submission and return - documentation [here](#)

Technical staff onboarding

1. Review technical documentation [here](#)

Best,

The NACC Team
