

Additional VCog Test Instructions for Video Administration of the UDS

Benson Immediate:

“Please retrieve a piece of paper and a pen.” After they have done this, say: “I am going to show you a design on the screen, and I want you to copy it onto your sheet of paper.”

Then, begin screen sharing the figure. When the design is completed, be sure to leave the image on the screen for 5 seconds and say:

"Be sure to remember this design, because I'll ask you to draw it again later from memory."

End screen share and ask the participant to hold their drawing up in front of their face, and take and save a screen shot. Have them shred it and place in trash can/out of view. Ask them to place the pen out of reach.

Number Span Forward:

“Please make eye contact with the camera, cross your hands and put your elbows on the table or arm rests.”

Number Span Backward:

“Please make eye contact with the camera, cross your hands and put your elbows on the table or arm rests.”

Benson Delay:

"Remember that figure that I asked you to copy a while ago? I want you to draw as much of it as you can remember."

“Please retrieve a piece of paper and a pen and begin drawing”

When they are done, ask the participant to hold their drawing up in front of their face, and take and save a screen shot. Have them shred into small pieces and place in trash can/out of view. Place the pen out of reach.

RECOGNITION TRIAL: Share the PowerPoint slide with the 4 recognition stimuli and say, “Which one of the figures was the one you copied before?”

RAVLT Immediate:

“Please make eye contact with the camera, cross your hands and put your elbows on the table or arm rests.”

[Continue with regular RAVLT instructions after]
