NACC Neuropathology (NP) Data Template

(Version 9, November 2006)

NACC Neuropathology Data Template

NOTE: Changes for version 9 and the previous version 8 are included in this manual, due to the short time lapse between the implementation dates.

Version 9 should be used for all new data collection, effective immediately. However, if you have completed an earlier version of the NP Data Form for some subjects, you may choose to submit the data for those subjects under that earlier version, or complete and submit data using Version 9.

The next data freeze is scheduled for March 1, 2007.

Summary of Changes (version 9, Nov. 2006):

The following **changes** are highlighted in **red** on the Neuropathology Data Template:

1. Item 13 has been changed to 13A.
2. Item 13B has been added.
3. Items 14A–25 have new column positions.

Files should be submitted via the NP data submission system on NACC's website, <https://www.alz.washington.edu>.

Summary of Changes (version 8, July 2006):

The following **changes** are also highlighted in **red** on the Neuropathology Data Template:

1. Items 20A1–20K3 have been added.
2. Items 21–24 were formerly collected on the MDS form, and item 25 has been added.

Files should be submitted via the NP data submission system on NACC's website, <https://www.alz.washington.edu>.

NACC Neuropathology Data Template

Variable length	Columns	Variable Name	Character or Numeric	Item #
2	1-2	ADCID	N	0
