

NACC UNIFORM DATA SET

Data Template For Follow-up Visit Packet

Version 3.0, March 2015

Copyright© 2006, 2008, 2015, 2017 University of Washington. Created and published by the ADC Clinical Task Force (John C. Morris, MD, Chair) and the National Alzheimer's Coordinating Center (Walter A. Kukull, PhD, Director). All rights reserved.

This publication was funded by the National Institutes of Health through the National Institute on Aging (Cooperative Agreement U01 AG016976).

Revisions made to this Data Template
since UDS3 implementation (March 15, 2015)

Date yyyy-mm-dd	Description	Form(s) affected	Question(s) affected	Data element(s) affected
2019-03-29	Name of CDR® Dementia Staging Instrument changed to comply with trademark. Coding is unchanged.	B4, Z1X	N/A	N/A
2018-06-14	Missing variables restored to Z1X	Z1X	23a – 27b	LANGC5F, FTDC5FS, FTDC5FR, LANGC6F, FTDC6FS, FTDC6FR, LANGE2F, LANGE3F, LANGCLS, CLSSUB
2018-04-02	Form Z1 replaced by Form Z1X	Z1	All	Numerous variables added on language of administration
2017-03-07	Name of form changed from FAQ. All items and coding remain unchanged.	B7	N/A	N/A
2016-08-03	Missing variable length supplied for form header item	A4G	N/A	ADCID
2016-08-03	Entries missing from form header restored	A3, A4G	N/A	PACKET, FORMID
2015-05-18	In Form A3, column positions corrected for KID1AGD	A3	7aa3	KID1AGD

Data Template

FOR NACC UNIFORM DATA SET (UDS) FOLLOW-UP VISIT PACKET (FVP)

This template is designed to help the ADC Data Cores develop software for submitting UDS data to NACC. The template details the data element names, type of data element, columns for ASCII file submission, and item number.

This template is needed only for ASCII batch file submissions. Centers using web data entry will not need this template.

A more detailed description of each data element is found in the data element dictionary. Data elements are listed by form and, within form, by item number.

Please note:

- The first 10 data elements are the same for each template, for each form. They are required and are shaded on the template. They must have legal values, or the form cannot be processed.
- There is exactly one blank space required between the data fields of adjacent variables. Although a data field may in some cases contain one or more blanks, the required separator blank must still be included. Column assignments and column alignment must be maintained.
- In some cases, the item number in the template does not appear on the form. This is true for most “Other (specify)” text items and dates.
- Because there is more than one version of a given form in current use, make sure you are using the appropriate template.

Form Header elements

The first 10 data elements in each form are:

PACKET	1 (For the Initial Visit Packet)
FORMID	Form ID (i.e., Z1, A1, B4, etc.)
FORMVER	3 (For this third version of all forms.)
ADCID	Center ID (Same number used in the MDS and NP data for your Center; see the UDS Data Element Dictionary for a list of Center IDs.)
PTID	Patient ID (Follow your Center's Patient ID scheme. Patient ID must be unique within the data set from your Center. For each subject, the PTID must be the same across all visits in the UDS. In addition, the same PTID used for that subject in the MDS and NP databases. PTID cannot change once it has been assigned by your Center. Since this is a character field, be sure to include/exclude leading zeroes to match ID numbers in all data sets.)
VISITMO VISITDAY VISITYR	Actual date of the interview (Cannot precede 09/01/2005.)
VISITNUM	Visit ID (Assigned by your Center, need not start with 1.)
INITIALS	Examiner initials (Initials of the person conducting the interview.)
