Application Instructions

http://grants2.nih.gov/grants/policy/coc/appl_extramural.htm

C-o-C Procedural fine points

- We (NIA) need IRB approval before issuing C-O-C.
- C-o-C coverage is effective from the time of submission to NIA.
- Best to construct consent form with C-o-C language to give to IRB for approval.
- If you use the sample language from the application instructions we will not question it except under extraordinary circumstances

C-o-C Coverage details

- Starts from time of submission
- Good in perpetuity for participants enrolled while C-o-C is in effect.
- Does not cover participants previously enrolled. Need to be re-contacted.

NIH Public Access Policy

- Revised Policy on Enhancing Public Access

International Collaborations

Some Past and Present Collaborations

The Indianapolis-Ibadan Dementia Project

Hugh Hendrie

English Longitudinal Study on Aging

Michael Marmot

Points to consider

- Starting an international collaboration as a Center pilot - needs NIA prior approval – Why?
- For an independent award it is better to write an application from the U.S.-based institution than from the foreign institution – Why?
- Institutional Review Board double jeopardy – Why?
