  - ADEAR clinical trials database
- Collaborate on materials

# ADC Article Bank

## Features:

- Search articles from *Connections* and other ADC newsletters
- Share articles

## Questions:

- Not many people using
- Different solution?

The screenshot shows a web browser window titled "ADC Article Bank - Microsoft Internet Explorer". The address bar contains the URL "http://adc.niapublications.org/adcarticle/search.aspx". The page header includes the "National Institute on Aging" logo and the "ADEAR Alzheimer's Disease Education & Referral Center" logo. Below the header, the text "ADC Article Bank" is displayed. A search instruction reads "Search articles on 1 or more fields below ([Instructions](#))". The search form includes several input fields: "Any Word" (text input), "Subject" (dropdown menu), "Author Name" (dropdown menu), "ADC" (dropdown menu), "Institution" (dropdown menu), "Newsletter Title" (dropdown menu), and "Date Published" (dropdown menu with "In or After" selected and "Enter Year in 4 digits" text input). At the bottom of the form are "Search" and "Reset" buttons. The Windows taskbar at the bottom shows the "start" button, several open applications (Microsoft Outlook, Microsoft PowerPoint, and the current browser window), and the system clock showing "11:09 AM".
