The National Alzheimer's Coordinating Center (NACC) was established by the National Institute on Aging (U01 AG016976) in 1999 to facilitate collaborative research among the 29 NIA-funded Alzheimer's Disease Centers (ADCs) nationwide. NACC developed and maintains a large relational database of standardized clinical and neuropathological research data collected from each ADC, and this database provides a valuable resource for both exploratory and explanatory Alzheimer's disease research.

NACC is funded by the National Institute on Aging (U01 AG016976) and located at the University of Washington's School of Public Health

Where to ask questions or make comments

You can find the answers to many of your questions at the following places:

Finding information

- **Search** — for many questions it's fastest and easiest to use the search box.
e.g. To find the UCSF ADC profile, type *UCSF ADC* in the box on the left and click *Search*.

Asking questions or making comments

- Each article has a **Talk page** — click on the **article's discussion** link at the top of the page — for questions or discussions about the article.

[edit] How to use the MAC Intranet

- **Help** — information about using the intranet.
e.g. *"How do I add an image to an article?"*
- Add content by **editing** pages

[edit] Important notes:

- Please write all inquiries to the relevant talk page.
- *Please do not post your question on this page.*
