

NACC update

**Spring 2020 ADRC Meeting webinar
Directors Meeting
May 1, 2020**

NACC data: Current totals

Total UDS participants, March 2020.....42,661

Cognitive status at most recent UDS visit

Normal cognition	Impaired, not MCI	MCI	Dementia
15,108	1,782	7,481	18,290

UDS participants with neuropathological data.....6,161

Cognitive status at most recent UDS visit

Normal cognition	Impaired, not MCI	MCI	Dementia
608	87	506	4,888

Covid-19 response

- **Accomplishments**

- Provided **fillable PDFs** of the English and Spanish Telephone Follow-up Packet (TFP)

- **On the horizon**

- Will add Geriatric Depression Scale (GDS) and the C2 neuropsychological test battery to TFP, **adapted for telephone administration**
- Plan to update the **Milestone Form** with Covid-19 items

Accomplishments

- Created **LBD Module v3.1** (short version)
- Produced **Brief Data Set (BDS) Form** for neuropathology data submission
- Created a system for submitting and processing **legacy MRIs**

On the horizon

- Blood pressure recommendation
- Down Syndrome Module
- NACC website relaunch

THE NIA ALZHEIMER'S DISEASE RESEARCH CENTERS PROGRAM

National Alzheimer's Coordinating Center
