

# 2022 Fall ADRC Directors Meeting

## ORE Core Program: Take Home Messages

- Appropriately honor the time and effort invested by participants and community partners to support research
- Effective outreach must involve connecting with 'trusted voices' in the community
- Take intentional steps to move from conversation → meaningful outreach (i.e., potential to make a difference) → to genuine engagement (bi-directional, sustainable)
- Evaluate whether your ADRC and its investigators are willing and able to meaningfully invest in the community; Is your ADRC committed to 'sustainability'? What is the ADRC willing to do to ensure sustainability of this investment?
