

# SPRING 2022 ADC MEETING ADMINISTRATORS SESSION: “EXTERNAL ADVISORY BOARD POST-COVID REALITIES”

Yearly EABs mandated

- Pre-covid expectation was 100% in person every year
- The “Morris metrics” (2017) gave us excellent, specific content guidelines

**Most (all?) Centers have now had 2 years of all-remote EABs**

*(has any center actually had an in person EAB since March 2020? Show hand if so!)*

*Current tension between -*

In person is great for Centers – longer EABs, more discussion & informal feedback

vs

Virtual is great for the Committee members – no travel! Condensed timing!

# GOALS FOR THIS SESSION (& BEYOND)

- ▶ This session: Discuss pros & cons of in person and virtual; discuss options that could become a new “standard” for post-covid EAB realities – or should the goal be go back to 100% in person every year? *(It doesn't seem like this is absolutely needed)*
  - ▶ Admin Steering Committee will draft a document outlining consensus thoughts of Administrators
  - ▶ Admin Steering Committee will circulate back to Administrators, as well Program, Directors & EAB Committees for feedback
  - ▶ Publish a new general “EAB best practice” document endorsed by Program *(Living document to be revised as needed by Committee)*
-
