NACC-REC Mentorship Program

NACC and REC have partnered to create the **REC-NACC New Investigator Award Mentorship Program**.

- The program will match mentors and mentees
- Provide guidance to new and early career investigators who apply for a **New Investigator Award**.

We envision this as a new collaboration that we would like to implement annually.

The mentoring program is a wonderful opportunity for REC leads to collaborate with NACC and to extend our networking opportunities for our REC mentees.

We are seeking mentors to guide REC trainees from different ADRCs in the development of their proposals.

In addition, please encourage your REC mentees to sign up!

NACC-REC Mentorship Program

Program Expectations:

- Once assigned a mentee, mentors will coordinate an initial introduction meeting, and 2 follow-up application review meetings
- Participate in program evaluations:
 - Mid-program Check-In Survey (Dec 2023-Jan 2024)
 - End of Program Evaluation Survey (February 2024)
 - Follow-up Survey one year later.
- The expertise and guidance of a mentor can make a significant impact on the success of REC trainees and new investigators as they develop their proposals.

Research Education Component

NACC-REC Mentorship Program

Important Dates :

- Mentor Sign-Up Deadline: November 30, 2023
- Application Deadline: January 30, 2024

Program Expectations:
