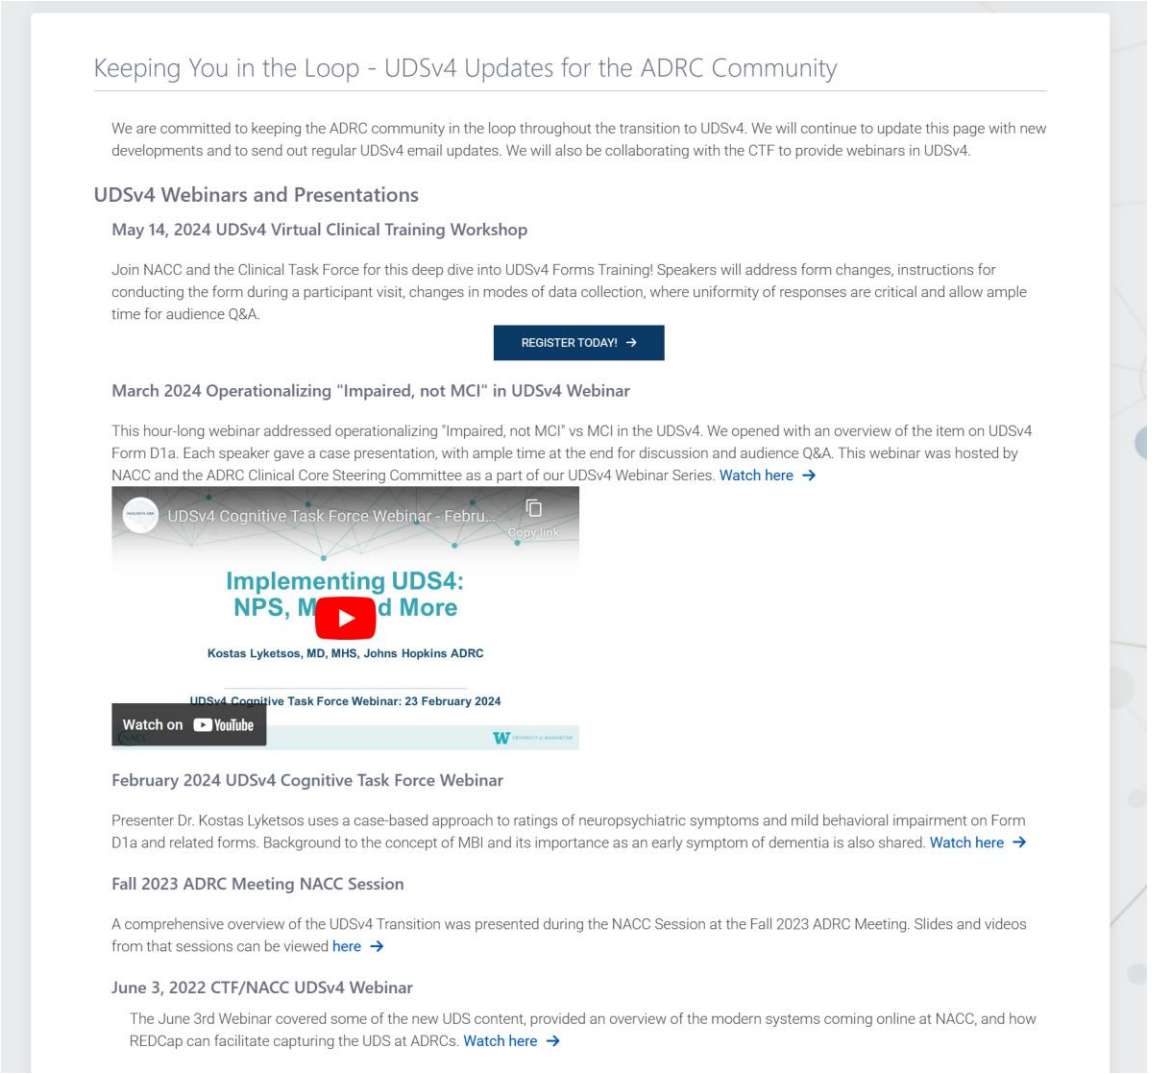
NACC UDSv4 Updates



Keeping You in the Loop - UDSv4 Updates for the ADRC Community

We are committed to keeping the ADRC community in the loop throughout the transition to UDSv4. We will continue to update this page with new developments and to send out regular UDSv4 email updates. We will also be collaborating with the CTF to provide webinars in UDSv4.

UDSv4 Webinars and Presentations

May 14, 2024 UDSv4 Virtual Clinical Training Workshop

Join NACC and the Clinical Task Force for this deep dive into UDSv4 Forms Training! Speakers will address form changes, instructions for conducting the form during a participant visit, changes in modes of data collection, where uniformity of responses are critical and allow ample time for audience Q&A.

March 2024 Operationalizing "Impaired, not MCI" in UDSv4 Webinar

This hour-long webinar addressed operationalizing "Impaired, not MCI" vs MCI in the UDSv4. We opened with an overview of the item on UDSv4 Form D1a. Each speaker gave a case presentation, with ample time at the end for discussion and audience Q&A. This webinar was hosted by NACC and the ADRC Clinical Core Steering Committee as a part of our UDSv4 Webinar Series. Watch here →

February 2024 UDSv4 Cognitive Task Force Webinar

Presenter Dr. Kostas Lyketsos uses a case-based approach to ratings of neuropsychiatric symptoms and mild behavioral impairment on Form D1a and related forms. Background to the concept of MBI and its importance as an early symptom of dementia is also shared. Watch here →

Fall 2023 ADRC Meeting NACC Session

A comprehensive overview of the UDSv4 Transition was presented during the NACC Session at the Fall 2023 ADRC Meeting. Slides and videos from that sessions can be viewed here →

June 3, 2022 CTF/NACC UDSv4 Webinar

The June 3rd Webinar covered some of the new UDS content, provided an overview of the modern systems coming online at NACC, and how REDCap can facilitate capturing the UDS at ADRCs. Watch here →

Subject: [EXTERNAL] SUBMIT: Nomination Form for NACC Pilots

Dear Oregon Health and Science University, ADRC Directors, Clinical Core Leaders, Data Core Leaders, Data Managers, and Administrators,

The National Alzheimer's Coordinating Center (NACC) is launching two pilots that are geared towards familiarizing Alzheimer's Disease Research Centers (ADRCs) with important new features of their ADRC Portals, including the new NACCID assignment process and UDSv4 data collection and submission options.

ADRCs are STRONGLY encouraged to participate as these pilots are essential for preparing your site to successfully engage with the new NACC Data Platform and effectively transition to UDSv4.

The pilots will run between May and July 2024.

- NACCID Pilot: Learn more here
- UDSv4 Pilot: Learn more here

ADRCs must nominate a point person for each pilot by Friday, May 10, 2024, by filling out THIS FORM.

If you have questions about this survey, please contact Jess Welsch, Senior Project Manager, NACC.

Thank you,

NACC Team

P.S. The recipient list for this email is based on contact information in the NACC Directory. If the list is incorrect, please have your Administrator login to the NACC Directory and update the Leadership Information page.
